# THE WASATCH

With 4-bedrooms and two levels of living, this home has room for everybody. With 2-bedrooms on the lower level, an impressive master suite on the main floor and a large bedroom upstairs, there is plenty of room for friends and family to spend time together and have their privacy. The first floor amenities include a large kitchen/dining area, magnificent great room and comfortable study, strategically placed next to the master suite. The lower level has a rec. room, full bath, laundry and ample storage space. Full log dormers make this home open, spacious and very attractive.
